

**Net Control** is provided by the Anne Arundel Radio Club for the nets listed below. The calendar that follows will list the call sign and first name of those assigned as Net Controllers for those networks, as well as holidays that may affect network schedules. All AARC nets operate on the W3VPR 147.075+ repeater with a PL tone of 107.2 and are open to all licensed hams.

**This Listing** consists of 2-3 letter network identifier (**HN or WNN**) followed by the call sign and first name of the assigned Net Control Operator.

**(HN) The W3VPR Holly Net** is now the official name of the Anne Arundel Radio Club's former *Morning Net*, named in honor of Margaret "Holly" Bevan (N3MB). Now a silent key, "Holly" was our beloved control operator for over 30 years. The Holly Net runs weekdays from 7am to 9am.

**(WNN) The W3VPR Wednesday Night Net** is the official name of the Anne Arundel Radio Club's network, held every Wednesday night, excepting holidays, at 8:00pm. It is open to anyone but was specifically designed to be a mid-week on line meeting of the club.

The AARC Net Coordinator is responsible for the management of the Net Control schedule as well as net operations. The Net Coordinator can be reached at [net.coordinator@w3vpr.org](mailto:net.coordinator@w3vpr.org)
